The main motto of the event is to share the participant propose solutions and express their views about what the problems are facing by the Youth in towards society.

So I have shared my point of view of how the Youth is suffering from the problems like stress, bullying and depression etc.

I have also mentioned about how the depression and bullying will cause main issue in the mind of the youth.

And also I mentioned how the youth should be stress free in today's life by continuing Regular exercise, getting plenty of sleep and Building strong relationships with others and many more.

And my conclusion is be happy and face the difficulty in an easy manner. So don't worry about the difficulty. If you gone into depression then think about the time because time is very precious than any other. For all the Youth, Work like a run machine. So this is my view.

To overcome these type of problem I have mentioned some of the important notice below :

- Medications : Because these provide antianxiety, antidepressants and antipsychotic medications. It has the benefits and potential risks to overcome the depression.
- Exercise : Do exercise for more than 30 minutes of physical activity between 3 to 5 days a week. Because exercise can increase your body's produces the endorphins it helps to improve your mood.
- Avoid alcohol and drugs : Drinking alcohol and using the drugs may make you feel better for a little bit of time. But for life long, these substances can get you into the depression and anxiety symptoms worse.
- Take care of yourself : Improve your symptoms of depression by taking care of yourself. Because these involves in getting much more of sleep , eating healthy foods, avoiding the wrong people, and get involved in the enjoyable activities.
- Prevent over thinking.
- Attention to the children words which makes you happy

So when the depression persons follow the above solution then he/she can overcome the depression problems.

INTERNATIONAL VOLUNTEER DAY

ECONOMIC AND SOCIAL DEVELOPMENT *05-12-2021 Sunday*

TOGETHER WE CAN THROUGH VOLUNTEERING

Summary

International Volunteer Day was commissioned by the United Nations General Assembly in 1985. The United Nations Volunteer Campaign sponsors local volunteers each year for peace and development.

"The best way to not feel hopeless is to get up and do something. Don't wait for good things to happen to you. If you go out and make some good things happen, you will fill the world with hope, you will fill yourself with hope" - Barack Obama.

This is an opportunity for individual volunteers, communities and organizations to facilitate contributions to development at the local, national and international levels. Combining UN (UN) support with basic missions, International Volunteer Day is a unique opportunity for people and volunteer organizations to collaborate with government agencies, nonprofits, community groups, academia, and the private sector.
